EXPERIENCE

Formula SAE Team – Powertrain Member September 2022 – Present

- Working to design and build a powertrain system for a Formula racecar.
- Designing assembly and manufacturing aids in SolidWorks.
- Fabricating parts using 3-axis milling machine and lathe.

FIRST Robotics – Subteam Lead August 2018 – September 2022

- Led a subteam of students using project management and teamwork skills to design and build a robotic subsystem.
- Designed flexible assemblies and functioning systems in SolidWorks for manufactured and 3D printed fabrication.
- Fabricated complex parts and assembled robotic systems.
- Sponsorship program lead, using networking and interpersonal skills to attract and retain sponsorship for the team.

Electric Car Team – Senior Student September 2021 – June 2022

- Designed and manufactured a fully electric racecar in under a year.
- Designed a 3D printed emergency stopping system in OnShape.
- Optimized drivetrain systems to increase efficiency.
- With the team, achieved first place in all races attended.

Merry Hill Golf Club – Clubhouse Employee May 2020– September 2022

- Demonstrated excellent customer service by implementing communication, responsibility, and cooperation skills.
- Navigated difficult situations through accountability and professionalism.

SHAD Canada – UPEI Fellow July 2021

- Engineered an award-winning solution interfacing Canadians with their water consumption habits, including custom 3D printed pipe mounting.
- Networked and learned from global leaders regarding environmental sustainability and business practices.

Choose to Lead – Student September 2018 – June 2022

- Developed teamwork, cooperation, management, and leadership skills in a variety of community activities and volunteering efforts.
- Developed public speaking skills, hosting the Waterloo Regional Mayors forum.

FLL Robotics Team – Mentor August 2018 – December 2019

- Co-founded and mentored a FIRST Lego League team, teaching engineering and teamwork skills to students.
- Built a framework to foster creativity, learning, cooperation, and teach the design process in the context of solving real world problems.

EDUCATION

Mechatronics Engineering – University of Waterloo 2022 – 2027

Candidate for Bachelor of Applied Science, studying Mechatronics Engineering. Working with likeminded students building collaboration, time management, and technical skills. Maintaining a grade average above 95%, with a 4.0 GPA.

SKILLS

Software

Proficient in object-oriented programming, with Python (4 years), JavaScript (4 years), C++ (1 year), and Java (1 year).

Frameworks / Tools

Experienced in website development tools such as HTML (5 years), CSS/LESS (5 years), ReactJS (3 years), Django (1 year), Git/GitHub (4 years).

Design

Experienced using CAD software such as SolidWorks (5 years), AutoCAD (1 year), and Onshape (1 year) for 3D printing and manufacturing.

Other

Experience in customer service and leadership roles, carrying a positive attitude while demonstrating teamwork and cooperation.

ACHIEVEMENTS

JamHacksV Winner

Won first place in the JamHacksV hackathon, where I designed and built a complete 3D printed cat feeding robot in 48 hours.

AP Scholars Award

Awarded the AP scholars Award for exceptional performance on Chemistry, Physics, and Economics advanced placement exams, all of which I achieved a qualifying score.

Duke of Edinburgh's Award

Awarded the prestigious Bronze and Silver Duke of Edinburgh awards for exceptional community service and personal growth.

Harvard CS50

Completed the Harvard CS50 computer science course, in which I learned software design principles, C++ and Python, and built a full stack application.
