Disclaimer: I do not partake in these activities because I want a better resume/LinkedIn, want scholarships, want to be accepted into a school, etc. I generally believe that's a bad reason to get involved and doesn't lead to long term fufillment/happiness.

The only reasons I keep track of extracurriculars are:

- 1) I don't like to lose data; some of this may be useful for later reference.
- 2) Sometimes I write scholarship essays / job applications / visa applications, and it comes in handy.

Licenses and Certifications

- CPR / First Aid
- Accessibility for Ontarians with Disabilities
- Worker Health and Safety Awareness
- Smart Serve Ontario
- Responsive Web Design
- WHMIS 2015
